

RP90TEF *Plastic Teflon Rotary Pump*

- Pump Type: Rotary - Vane
- Flow: 300 ml / Rotation
- Maximum Fluid Temperature: 130°F / 54°C
- Mounting: 2" MNPT Bung Adapter
- Suction Tube Length: 40" Maximum
- Inlet: 1-1/4" O.D.
- Outlet: 1" O.D. Curved Spout
- Wetted Parts: PvdF
- Maximum Viscosity: 2,000 SSU
- Standard Packing: 6pcs/ctn, NW: 16.5kgs, GW: 17.5kgs, Cuft: 2.2'

- Made from durable, light weight, rust resistance and high chemical resistance materials.
- Suitable for transferring most soluble, corrosive, volatile & edible liquids which are compatible with Teflon and Viton.
- Supply with 2" Bung adapter and 3-piece PVDF suction tube to fit most 15, 30 and 55 gallon drums.
- Self-priming unit, dispenses approximately 300 ml per stroke.
- Liquids do not with dirt to ensure pump life.

Part No: RP90TEF
