

FILL-RITE®

The Most Trusted Name in Pumps and Meters

IN-LINE DIGITAL METER FR1118A10

ALTERNATE CONFIGURATION

EXCEEDING YOUR EXPECTATIONS

Introducing the Fill-Rite® FR1118A10 In-line Digital Meter—it's the little meter that takes on big chores. Even though the new meter is remarkably small and lightweight, it's still a heavyweight performer.

Fill-Rite customers are accustomed to high-quality, dependable products that perform in any situation. That's why we're certain our new, highly accurate FR1118A10 In-line Digital Meter will meet—and exceed—your expectations.

The FR1118A10 is ideal for metering the transfer of diesel fuel and kerosene. It's easy to handle and easy to use. It can be installed in line or at the end of the hose.

Using a turbine measuring system, the FR1118A10 provides the ability to dispense liquids with convenience and accuracy, and the five-digit LCD readout is a consistent performer under the toughest conditions.

The FR1118A10 In-line Digital Meter. It's another high-quality Fill-Rite product that provides what our customers have come to expect from us—reliability, ease of use, and value.
