

Ideal for use with drums and barrels in low volume applications.

As with all Fill-Rite® fuel transfer pumps, our hand pumps are tough, reliable and long lasting. Fill-Rite hand pumps are perfect for low volume transfer of gasoline*, light oils, diesel fuel and other fluids from drums and barrels. Depending on the style of pump you choose, they operate by piston, rotary or hand lever action.

*For use with the 100 and 5200 series only.

Models available for a wide variety of fluids including:

- Diesel Fuel
- Bio Diesel
- Gasoline*

- Motor Oil
- Automatic Transmission Fluid

- Hydraulic Oil
- And many other chemicals and light oils

FILL-RITE.
